Response to Questions

The following questions have been asked along with corresponding answers provided below:

- Q1** Will the selected consultant be required to conduct the necessary 13-hour turning movement counts at the subject intersection to conduct a Traffic Signal Warrant Study or will this traffic data be provided by the City?
- A1** The selected consultant would be expected to just perform peak traffic counts and determine current and future traffic volumes.
- Q2** Will the City be providing any survey data at the intersection or will the selected consultant be required to conduct all needed surveys in order to develop the intersection design alternatives?
- A2** The Town does not have any current survey data to provide. Limited survey work would be considered for the scope of work.
